

bathmate®

HydroMAX Hydropump

This is the testimonial from Wayne Boardman

Wayne Boardman is a National Coach to the England Wheelchair Rugby League Team and also a key squad player for the team.

The team recently won the world championships held in Australia, a remarkable achievement considering they were playing Australia in the final.

A serious road accident some years ago left Wayne in a wheelchair and his life since that tragic accident will act as an inspiration to all who hear it.

This is Wayne's story and how the ["Bathmate"](#) helped him:

Hello, my name is Wayne and I would like to share my story with you.

A few years ago I was involved in a serious road accident which has left me in a wheelchair. This, as you can imagine, was extremely difficult to come to terms with, particularly as sport up to that time had formed a major part of my life.

However, one has to get on with one's life and I was please to find that I could at least enjoy physical competition again when I joined my local wheelchair rugby and basketball teams.

During 2008 I was honoured to become a coach to the England National Wheelchair Rugby League Team, and also a key player in the squad. Due to unforeseen circumstances I was unable to go with the England Team to Australia and take part in the World Cup, and though I was devastated at not being able to take part, I was, of course, delighted for the team.

It was a magnificent achievement, especially as they beat Australia in the final, and on their own soil. Sport apart; being a young man one of my other concerns was my ability to enjoy some form of sex life. To manage sex since my accident I have needed to use injections or drugs such as Viagra in order to achieve and sustain an erection.

The injection proved the better method for me as it avoided the headaches I suffered with Viagra and also my erection lasted longer. Injections are not pleasant, nor are they conducive to spontaneous sexual activity, but they did give me some degree of sexual life.

Then recently a friend introduced me to a product called **"Bathmate"**. It is described as the World's first hydro-pump penis exerciser and having read some good testimonials on the web site I decided to brave the usual jokey comments about such products and give it a try. I mean, why not? It wasn't going to cost me a fortune and I thought it worth a go.

I bought a **"Bathmate"** in September 2008 and I have been blown away by the results. Over the past few months I have been able to gain and sustain a natural erection – and if that wasn't delight enough, I have also noticed a dramatic increase in the size and hardness of my erection and a significant increase in sexual enjoyment.

My confidence and self-esteem has enjoyed a massive boost and I now feel like a full man again. I am so impressed that I now use **"Bathmate"** every time I take a bath or a shower.

I, like everyone in my position, can only hope that medical science can advance and allow me to walk again, but at least in one department **"Bathmate"** has made a significant improvement to my standard of life and I now recommend it to all my friends.

Thank you [BATHMATE](#),

Wayne Boardman

England International Wheelchair Rugby League Player and Coach
